Lagos State

Summary

Results-driven Fullstack Developer with over 1 year of experience in delivering impactful software solutions. Proficient in a wide range of cutting-edge technologies for building robust, scalable web and mobile applications. Expertise in JavaScript, React, Node.js.

Experience

Full Stack Development [Intern]

Techstudio Academy

06/2024 - Present

- Developed responsive and interactive user interfaces for *Bizfides* using React.js and Tailwind CSS, ensuring a seamless and engaging frontend experience across all devices.
- Built and maintained backend architecture with Node.js and Express, optimizing API performance and ensuring scalability for future growth.
- Collaborated closely with cross-functional teams to streamline workflows, improve platform functionality, and deliver efficient, high-quality solutions on time.

Front End Development [Intern]

HNG (Remote)

07/2024 - 08/2024

- Implemented and optimized user-friendly web pages using Tailwind CSS, JavaScript, and React.js.
- Collaborated on building RESTful services and consuming APIs for dynamic content on the frontend.
- Managed code repositories using Git and followed best practices for version control and branching.
- Implemented design changes that resulted in a more intuitive user experience, improving user engagement and reducing bounce rates.
